1 **Forget Fashion Faux Pas**
Avoid pesky white marks with **Degree® Women Ultra Clear** in the new irresistible fragrance Red Satin. It also provides 24-hour protection against odor and wetness, so you can walk into any room like you're walking the red carpet—cool, confident and daring to make a statement.

2 **Color is Key**
Bright colors give just the pop you need to stand out among the crowd. A bold clutch or scarf gives any outfit a whole new look.

3 **Add Extra Shine & Sparkle**
Bling is usually saved for accessories—jewelry, bag, or shoes—but used as a detail on a gown or your menswear-inspired tailored blazer can make you dazzle.

4 **If The Shoe Fits, Wear It**
A jeweled or metallic flat or sandal can be much more comfortable and add a sense of personal style to most high-glam looks.

5 **Try On Your Total Look**
Dress up in advance to eliminate last minute issues. Beauty treatments like faux tans, hair coloring, manicures and pedicures are best done a day or two before.
